1. Introduction and aims

- 1.1. This is the Restrictive Interventions (Positive Handling) Policy of the Stephen Perse Foundation (the School).
- 1.2. The School is committed to creating a safe, and supportive environment. Our primary goal is to minimise the use of restrictive interventions through early support, prevention, and de-escalation.
- 1.3. The aims of this policy are as follows:
 - 1.3.1. To explain how the School promotes good behaviour and, where necessary, uses restrictive interventions, including reasonable force, non-physical restraint and seclusion, in line with Department for Education (**DfE**) guidance and applicable legislation.
 - 1.3.2. To set out definitions, decision-making principles, unacceptable practices and our statutory recording and reporting duties so that staff and parents understand when and how much measures may be used, and how we reduce their use over time.

2. Scope and Application

- 2.1. This policy applies to all of the schools of the Stephen Perse Foundation, including the Early Years Foundation Stage (**EYFS**) and to boarding students. It applies whenever members of staff are lawfully in charge of our students, including while on school trips.
- 2.2. This policy is designed to address the specific statutory obligations on the School to record and report on the use of force and seclusion at school and to provide further information about how School staff use these powers safely and appropriately.

3. Regulatory Framework

- 3.1. This policy has been prepared to meet the School's responsibilities under:
 - Education (Independent School Standards) Regulations 2014;
 - *National minimum standards for boarding schools* (Department for Education (**DfE**), updated May 2026);
 - *EYFS statutory framework for group and school-based providers* (DfE, updated September 2026);
 - Education and Inspections Act 2006, especially sections 93 and 93A
 - Schools (Recording and Reporting of Seclusion and Restraint) (No. 2) (England) Regulations 2025
 - Health and Safety at Work etc. Act 1974 and associated regulations
 - Human Rights Act 1998
 - Equality Act 2010
- 3.2. This policy has regard to the following guidance and advice:
 - [Restrictive interventions, including the use of reasonable force, in schools \(DfE, April 2026\)](#)
 - [Behaviour in Schools – Advice for Headteachers and School Staff \(DfE, updated February 2026\)](#)

[2024\)](#)

- [Screening, Searching and Confiscation – Advice for Head Teachers, Staff and Governing Bodies \(DfE, updated July 2023\)](#)
- [Keeping children safe in education \(DfE, updated 2026\)](#)
- [Boarding Schools: national minimum standards \(DfE, updated May 2026\)](#)
- [Safer Recruitment Consortium 'Guidance for Safer Working Practices for Adults working with Children and Young People in Education Settings' \(February 2022\)](#)

4. Definitions

Restrictive intervention: any action that prevents, restricts, or subdues a pupil's movement (or part of the body), including physical and non-physical measures, used to reduce immediate risk of harm to themselves or others.

Reasonable force: the minimum degree of physical force necessary, used for the least time, to prevent immediate risk of harm or to conduct a lawful search for a statutorily prohibited item.

Restraint: a form of restrictive intervention involving the use of force to hold back, physically prevent, or otherwise restrict a pupil's movement; this includes non-physical restraint (e.g., removal of a mobility aid).

Seclusion: a non-disciplinary, time-limited safety measure in which a pupil is supervised away from others to reduce immediate risk of harm; it must never be used or threatened as punishment.

Significant incident: any use of force that goes beyond appropriate physical contact, including where the degree, duration or context of force is more than minimal. Staff will use proactive strategies and de-escalation wherever possible; restrictive interventions are used only when necessary, proportionate and time-limited to address an immediate risk of harm. We communicate this policy to staff, pupils and parents as part of our behaviour culture.

5. Whole school approach to behaviour management

5.1. We will reduce the need for restrictive interventions through consistent, whole-school measures that promote safety, predictability and inclusion for all pupils. Whole school measures include:

- Having clear, positively framed routines and expectations taught explicitly and revisited in lessons, assemblies and form time and a curriculum that builds social, emotional and self-regulation skills.
- Creating a predictable School and classroom environment by modelling respectful interactions and enforcing expectations of appropriate behaviour around school; consistent application of the School's Behaviour Rewards and Sanctions Policy; the use of corridor one way systems where practicable; on some sites, specific quiet spaces such as study spaces or libraries.
- Practising restorative approaches including the use of recognition and reinforcement of positive behaviours and restorative conversations to rebuild relationships following incidents and build trust.

- Ensuring staff receive regular training and reminders of specific pupil needs or emerging needs in the School.
- Ensuring staff receive regular updates and professional development as required with regard to changes to School policy and procedure due to guidance changes or changes following an internal review.
- Monitoring behaviour and restrictive-intervention data to identify patterns, triggers, and disproportionality to inform improvement planning, environmental adjustments and staff training. Heads of School will monitor the use of force, seclusion and restraint, reporting any patterns or trends to the Governing Body through the School's Safeguarding Committee.
- Communicating with parents and pupils, providing clear information on our approach to behaviour and safety and providing opportunities to share pupil preferences, regulation strategies and communication needs as required in individual behaviour plans.

6. Physical contact with pupils

- 6.1. The School does not operate a "no contact" policy. Staff may make appropriate, non-force physical contact in context (e.g., first aid, assisting with personal care in line with care plans, guiding a pupil, comforting a distressed pupil, or demonstrating activities for example, to demonstrate technique in the use of a piece of equipment, adjust posture, or support a child so they can perform an activity safely or prevent injury), consistent with discharging safeguarding duties.
- 6.2. It is recognised in the EYFS that there will be times when staff are required to have close physical contact with a child including intimate care. It is also important for the children to feel safe, secure and cared for in their environment. We understand that children can react differently to physical contact and we respect this. It should always be the child who instigates any sort of physical contact such as cuddles. If a child is very upset then the adult must ask the child if they want a cuddle. Children should not be kissed by the nursery staff under any circumstances. Should a child be particularly clingy with one member of staff for a longer period than is considered appropriate or they require more physical contact than what is normally needed for care practices, parents will be informed on the same day using the Tapestry care diary.
- 6.3. Similarly, it is recognised that there may be times when it is appropriate for boarding staff, acting in loco parentis, to have closer physical contact, such as a hand on a student's shoulder, to provide reassurance at a time of a student's personal distress and to replicate the behavioural contexts and environment of the home.
- 6.4. Staff should refer to the Staff Code of Conduct for further information and guidance. If a member of staff believes that an action could be misinterpreted, the incident and the circumstances must be reported via the Low level Concerns form as a self-referral as soon as possible.

7. When restrictive interventions may be used

- 7.1. Like all schools, we reserve the right for our staff to use reasonable force to control or restrain a pupil in specific circumstances. Staff may use restrictive interventions only when necessary to prevent a pupil from:

- (a) causing injury to themselves or others;
 - (b) seriously damaging property where this creates a risk to safety; or
 - (c) posing an immediate risk of disorder that presents a risk of harm.
- 7.2. Any intervention used will be the least restrictive option likely to be effective and used for the minimum time to reduce the immediate risk.
- 7.3. Before intervening, and while an intervention is ongoing, staff will always consider:
- Necessity: Is there an immediate risk of harm that cannot be addressed safely by de-escalation or other less restrictive alternatives?
 - Proportionality: Is the degree and duration of restriction the minimum necessary to reduce the risk?
 - Welfare and context: Has the pupil's age, size, medical conditions, SEND, trauma, dignity, communication needs and the environment been considered?
- 7.4. Staff will pause or stop where the intervention escalates the risk. It is unlawful to use force as punishment. Staff will not restrain a pupil in a way that affects the airway, breathing or circulation (for example, pressure to the neck, chest or abdomen, or covering the mouth or nose). Prone or ground restraints carry elevated risk and will be avoided wherever possible; if a pupil is taken to the ground, staff will release or reposition as quickly as possible. Holds designed to inflict pain will not be used and staff will immediately ensure that a medical assessment is undertaken where any injury may have occurred.
- 7.5. All of our staff are trained in the circumstances in which reasonable minimum force may be used, both as part of their induction and regular refresher training on managing pupil behaviour. Staff likely to use restrictive interventions will receive relevant training, including prevention and de-escalation. The school will undertake risk assessments to support staff to act safely and lawfully, in line with our duty to protect staff health, safety and welfare.
- 7.6. In particular, they are advised always to use their voices first and to use the minimum force necessary to restrain a pupil for the shortest possible period of time. The use of force can include either passive contact (such as standing between pupils or blocking a path) or active contact (such as leading a pupil by the arm away from a situation).
- 7.7. Members of staff (including non-teaching staff) may use reasonable force at any time off the School premises when they have lawful charge of the pupil elsewhere (e.g. on a school trip or other authorised out of School activity).

8. Recording and reporting

- 8.1. The School will record and report restrictive interventions, including significant uses of force, seclusion and non-physical contact.

- 8.2. Incidents will be recorded as soon as practicable, and where possible the same day. The staff member directly involved will make a record on MyConcern if the incident raises a safeguarding or wellbeing concern. Additionally, the member of staff who enforced the intervention or seclusion must complete the Restrictive Interventions Recording Form which can be accessed via the Staff Forms shared drive. Each record will include:
- the names of staff and pupils involved;
 - details of the pupil's needs/SEND status, if any;
 - the time, date, location and duration of the incident;
 - a description of the incident;
 - details of any de-escalation attempted;
 - the type and degree of force used;
 - the rationale for necessity and proportionality;
 - any injuries sustained and medical attention provided;
 - details of any post-incident support and/or follow-up provided and/or required;
 - any additional information which could support the evaluation of incidents such as witnesses' accounts of what happened; and
 - the time and date on which the incident was reported to parents.
- 8.3. Incidents will be reported to parents as soon as practicable, in writing and, where possible, the same day or as soon as is reasonably practicable. The report will include:
- the time/date/location/duration of the incident,
 - details of why the use of force was necessary,
 - the type and degree of force used, and
 - details of any injuries sustained, if applicable.
- 8.4. Parents may be invited to the School, so that we can, if necessary, agree a plan for managing their child's behaviour.
- 8.5. There are limited exceptions to this procedure where safeguarding is a consideration and there is any risk that reporting the incident would likely result in serious harm.
- 8.6. The School will ensure that records kept will be accurate, factual and completed by any staff involved (and quality-assured by a senior leader). We will retain records in line with our retention schedule.
- 8.7. As required under the National Minimum Standards for Boarding Schools, senior leaders will monitor the use of restraint and take appropriate action to prevent the inappropriate use of restraint. They will take effective action when inappropriate restraint has been used.
- 8.8. In addition, the relevant Head of School will consider whether staff require any additional training and support to enable them to de-escalate potential confrontations between pupils, or potentially violent behaviour, to minimise the need for restraint.

9. Support following an incident

- 9.1. The immediate focus following an incident will be on the wellbeing and safety of any pupils and staff involved. The School will provide medical assessment/treatment for injuries where appropriate and, once appropriate to do so, will facilitate a debrief conversation(s) with the pupil and involved staff led by a non-involved member of staff to learn and repair relationships. The School will provide ongoing wellbeing support for pupils, staff, and any witnesses as needed.
- 9.2. As soon as practicable the School will evaluate the incident to understand why it occurred and identify how to reduce any future need for the use of reasonable force and/or restrictive interventions.

10. Seclusion

- 10.1. Seclusion is a non-disciplinary safety measure used only to protect others from immediate harm when a pupil is highly dysregulated and not acting with intent. It will never be threatened or used as punishment. Seclusion may occur by removing the dysregulated pupil from others, or removing others to leave the dysregulated pupil secluded.
- 10.2. Any seclusion will occur in a safe, non-threatening space. The pupil will be continuously supervised and the seclusion will last only as long as necessary, and end as soon as the immediate risk reduces.
- 10.3. All incidents of seclusion will be recorded and reported in line with the above Recording and Reporting Duties.

11. Pupils with SEND and individual support

- 11.1. The School recognises the risk that pupils with SEND may be disproportionately subject to the use of restrictive interventions. The School also recognises that some pupils, without SEND, such as those who have experienced past trauma, may require individual support.
- 11.2. The School understands the importance of identifying and understanding any underlying triggers of challenging behaviour so that they can provide individual, proactive support and create an inclusive environment.
- 11.3. The Schools will where possible utilise staff who know individual pupils well to help identify and manage risk such as trigger points when challenging behaviour is more likely to occur and develop proactive strategies to reduce the likelihood of restrictive interventions being used.
- 11.4. The School will work with the pupil, parents and other professionals to:
 - Develop prevention and de-escalation strategies. This may include removing stimuli that may be causing distress, giving pupils time, space and strategies to calm down before their behaviour escalates or engaging the pupil in an activity which can help them manage their feelings.

- Develop a behaviour support plan to include details of any adjustments required and the pupil's communication preference. The behaviour support plan will also clearly set out the parameters where staff may have increased physical contact with a pupil.
- Review the behaviour support plan with the pupil and their parent periodically and following any significant incident, so that changes can be made based on evidence of what has worked and what has not worked in practice for the individual pupil.

11.5. The Governing Body will regularly review data on use of force, seclusion and restraint to identify any disproportionate use affecting pupils with protected characteristics or SEND.

12. Searching a student and confiscation of property

12.1. The School reserves the right to search pupils and their possessions. The School will balance pupils' right to respect for private life with the need to conduct a search, seeking the pupil's co-operation wherever possible and ensuring any search is justified and proportionate in the circumstances. It will balance the right of boarders to privacy with the need for the School to search a boarder or his/her possessions with consent, where there is a strong reason to do so.

12.2. Reasonable force will only be used only when searching for legally prohibited items under the Education Act 1996, and never to search for items banned only under the School Rules. Any decision to use reasonable force will be taken on a case-by-case basis, using no more force than is necessary and for the least amount of time, and with regard to de-escalation wherever possible. Please refer to the School's Searching and Retention and Disposal of Confiscated Items Policy for further information.

13. Records, monitoring and review

13.1. All records created in accordance with this policy are managed in accordance with the School's Information and Records Retention Policy.

13.2. The Senior Leadership Teams in each setting will regularly review incidents of and analyse data relating to restrictive interventions in order to:

- identify and implement improvements to policies and practices, particularly where approaches have been used for some time but have not been effective;
- identify areas of learning and development for school staff, supporting specific departments and teachers to improve understanding and practice;
- understand pupils' repeat patterns and triggers to interrogate the effectiveness of pupil support measures, share this information with teachers who work with those pupils to better support them and, where appropriate, their parents, to establish a behaviour support plan or revise an existing plan;
- identify any disproportionate use of restrictive interventions in relation to pupils who share protected characteristics, have SEND, or other types of vulnerability.

13.3. Overall statistics are reported to and monitored by governors.

13.4. This policy will be reviewed and updated on at least an annual basis, or earlier as required.

14. Complaints

- 14.1. Any complaints will be dealt with under the School's Complaints Policy.
- 14.2. If an allegation regarding inappropriate use of force and/or other restrictive interventions is made against a member of staff, the School will follow the procedures set out in its Safeguarding and Child Protection Policy alongside the Low Level Concerns Policy for Staff Conduct Towards Pupils.

15. Other relevant policies

- 15.1. Please also refer to the policies below:
- Behaviour, Rewards and Sanctions Policy
 - Complaints Policy
 - Intimate Care Policy
 - Low Level Concerns Policy for Staff Conduct Towards Pupils
 - Safeguarding and Child Protection Policy
 - Searching and Retention and Disposal of Confiscated Items Policy
 - Smoking, Alcohol and the Misuse of Drugs and Substances Policy
 - Staff Code of Conduct
